

## **Parent / Carer Acceptable Use Agreement**

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users. Copies of policies are available via our website or from the school office.

## **Use of Digital / Video Images**

The use of digital / video images plays an important part in learning activities. Pupils and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media.

The school will comply with the new Data Protection rules, which came into force in May 2018. To ensure we are meeting the new requirements, we need to obtain your consent for the ways in which we use this data. Therefore, we request parents / carers permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

**Parents / carers are welcome to take videos and digital images of their children at school events for their own personal use only. To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital / video images.**

## **Our Motto reflects our school ethos:**

At St Margaret's we expect children to embrace our caring Christian ethos where everyone encourages each other to do their best and success is celebrated every day.

**- Everyone is valued      - Everyone is motivated      - Everyone achieves**

We set high expectations for learning, appearance, conduct and behaviour. This is informed by our core Christian values:

<b>Respect</b>	<b>Equality</b>	<b>Co-operation</b>
<b>Compassion</b>	<b>Peace</b>	<b>Forgiveness</b>

Our children embrace these values and they permeate our whole approach. We ask parents/carers to support us in setting and maintaining these high standards with the children.
